Richard O. Warther

Conf. No.: 8823

Group Art Unit: 3722

Appln. No.: 10/040,107

Examiner: Willmon Fridie, Jr.

Filing Date: January 4, 2002

Attorney Docket No.: 7842-1U6RE

Title: INTEGRAL PRINTED SELF-MAILER SHEET PRODUCTS

RESPONSE TO OFFICE ACTION

This response is made to the Office Action mailed January 25, 2005, having a three month shortened statutory period for a response. A one-month extension of time through May 25, 2005 accompany's this response.

Applicant respectfully traverses the restriction imposed by the Examiner between claims 8-19 and 20-40. In particular, claims 20-40, which are identified as a combination, require each and everyone of the particulars of claim 8, namely: a core having first and second major planar sides and bearing printing on at least one of the major side, a magnetic strip permanently fixed over one of the opposing major planner side extending across the sheet product proximal one longitudinal end of the sheet product, and a closed perimeter opening extending entirely through the core and the element, proximal a remaining one of the pair of longitudinal ends of the element. The distinction identified by the Examiner is based upon the title of the claim and not the particulars of the claims. The restriction between claims 8-19 and 20-40 are unsupported. Withdrawal of the restriction is respectfully requested.

Also enclosed is a Supplemental Reissue declaration from the inventor, particularly pointing out features of the claims which led applicant to claim less than he was entitled to, errors in the original claim for priority and errors in the figures in U.S. Patent 6,010,159, which is the subject of this re-issue application.

The examiner is further directed to an application of the applicant, Application No. 10/686,093, currently pending before the Examiner, on similar subject matter. That application is a continuation of U.S. Patent Nos. 6,769,718, 6,039,356, and 5,769,457. A full information disclosure statement with these patents will be sent by mail for consideration in this application.

For the foregoing reasons, withdrawal of the restriction requirement, acceptance of the Supplemental Reissue Declaration, consideration of the separately forwarded Information Disclosure Statement and the references cited therein and/or supplied, and allowance of the present application are respectfully requested.

Respectfully submitted,

Richard O. Warther
